

## Regulatory Data Sheet

### CARBOWAX™ SENTRY™ Polyethylene Glycol 400 NF Low Aldehyde; Macroglol 400 Ph. Eur.

Information provided in this Regulatory Data Sheet (RDS) does not indicate Dow product availability in all countries aligned with the below regulations. Please contact Dow to confirm availability of product in specific countries.

#### Global Chemical Inventory Compliance

Country	Inventory	Status
Australia	AIIC	All substances contained in this product are listed on the Australian Inventory of Industrial Chemicals, or are not required to be listed.
Canada	DSL	All substances contained in this product are listed on the Canadian Domestic Substances List (DSL) or are not required to be listed.
China	IECSC	All intentional components are listed on the inventory, are exempt, or are supplier certified.
Japan	ENCS	All intentional components are listed on the inventory, are exempt, or are supplier certified.
Korea	KECI	All intentional components are listed on the inventory, are exempt, or are supplier certified.
New Zealand	NZIoC	There is no requirement to list components of this product on the New Zealand Inventory of Chemicals (NZIoC).
Philippines	PICCS	All intentional components are listed on the inventory, are exempt, or are supplier certified.
Switzerland	EINECS	The components of this product are on the EINECS inventory or are exempt from inventory requirements.
Taiwan	TCSI	All intentional components are either listed on the Inventory or exempted by regulations, or certified by vendors of their supply chemicals.
United States of America (USA)	TSCA	All components of this product are in compliance with the inventory listing requirements of the U.S. Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

#### Country/Area Additional Chemical Control Law Information

Country/Area	Regulatory Reference	Details
EEA Countries, Switzerland	REACH	Please search <a href="https://www.dow.com/en-">https://www.dow.com/en-</a>

**CARBOWAX™ SENTRY™ Polyethylene Glycol 400 NF Low Aldehyde; Macrogol 400 Ph. Eur.**

	Regulation (EC) No 1907/2006 Annex XVII	us/support/sds-finder.htm for the country Safety Data Sheet (SDS). If a SDS is not available, you may contact Customer Information Group at <a href="https://www.dow.com/en-us/contact-us.html">https://www.dow.com/en-us/contact-us.html</a> to confirm product availability in this country and request a SDS.
--	---	--

## **REACH**

REACH requires the registration of substances when they are manufactured or imported into the European Economic Area (EEA) at a volume of one metric ton or more per annum per legal entity. We hereby confirm that every REACH relevant substance in the composition of the above Dow product(s), made available on the EEA Market by Dow, has been accordingly covered under REACH, either via own registration or supplier coverage for the relevant tonnage band, and is therefore compliant with the REACH regulation (EC) N° 1907/2006 as per the official ECHA list published on the ECHA website <https://echa.europa.eu/information-on-chemicals/registered-substances>. The above statement is only valid for volumes imported into or manufactured within the EEA by Dow and placed on the market within the EEA. For customers based outside the EEA importing Dow products or products containing Dow products into the EEA, please note that these imports are not covered under the EEA Dow Legal Entity(ies) registrations. It is the obligation of the importer to ensure REACH compliance unless an agreement is in place that allows the importing non-EEA company's volumes to be covered under the Dow Only Representative Trustee model, which covers volumes of indirectly imported Dow products under the existing Dow registrations. The possibility of providing a Dow Only Representative Trustee coverage needs to be evaluated for each REACH relevant substance. For information on our products and REACH, visit the Dow REACH page <https://reach.dow.com/en-us>.

## **REACH Substances of Very High Concern (REACH SVHC) or Candidate List of SVHC**

The product does not contain any of the Substances of Very High Concern (SVHC) listed on the most current candidate list published on the ECHA website ([http://echa.europa.eu/chem\\_data/authorisation\\_process/candidate\\_list\\_table\\_en.asp](http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp)), above the reportable limits based on composition information for the raw materials.

## **Cosmetic Regulations**

### **Regulation (EC) No 1223/2009 on cosmetic products**

The composition of this product complies with this regulation.

## **Dietary Laws**

### **Kosher**

This product is certified Kosher pareve, i.e. for Passover use. Certification is maintained as long as the product is transported in OU (Orthodox Union) approved containers. To obtain the corresponding certificate please contact our Customer Information Group (CIG).

# CARBOWAX™ SENTRY™ Polyethylene Glycol 400 NF Low Aldehyde; Macrogol 400 Ph. Eur.

## **Halal**

This product has not been manufactured or formulated with animal fats or ingredients derived from animal or fermentation products. Additionally, none of the components listed above are known by us to be present as impurities or by-products in any of the ingredients used to make this Product. Finally, ethanol is not used as a processing aid nor is it believed to be present as an impurity or by-product in this Product.

## **Environment - Air**

### **Clean Air Act**

This product is not manufactured or formulated with Class I or II substances as defined under 40 CFR part 82 of the Clean Air Act of 1990, as amended (58 FR 8136).

### **Hazardous Air Pollutants**

To the best of our knowledge, with regards to the Clean Air Act, Section 112(b), this product does not contain any Hazardous Air Pollutants (HAPs) at or above 0.1%.

### **Persistent Organic Pollutants (POPs)**

Persistent Organic Pollutants (POPs) are chemicals that resist degradation by physical, chemical or biological pathways. Their persistence enables them to be transported by air, water or other means to remote regions where they have never been used. Since they have a capacity to bioaccumulate, they may concentrate in the living tissues of species higher up in the food chain and pose a risk to the wellbeing of human populations and wildlife. The identified POPs for control under the Stockholm Convention are listed in annexes A, B and C of the convention text.

This product does not contain substances listed in Annexes of Stockholm Convention on persistent organic pollutants. These substances are not constitutional parts of the raw materials nor are they intentionally added to our product. This product is not known to have any bioaccumulation or persistence characteristics in the environment.

## **Hazard Information Reporting (RTK)**

### **California Prop. 65**

This product contains a chemical that is at or below California Propositions 65's "safe harbor level" as determined via a risk assessment. Therefore, the chemical is not required to be listed as a Prop 65 chemical on the SDS or label.

## **Irradiation**

### **Irradiation**

This product does not contain material that has been irradiated nor has it been manufactured at any stage with irradiation.

# CARBOWAX™ SENTRY™ Polyethylene Glycol 400 NF Low Aldehyde; Macrogol 400 Ph. Eur.

## **Metal Regulations**

### **EU 94/62/EC - Packaging and Packaging Waste**

This product conforms to the European Directive 94/62/EC, as amended, on Packaging and Packaging Waste, Article 11. Any incidental levels of lead, cadmium, hexavalent chromium, and mercury do not exceed 100 ppm total.

### **Coalition of Northeastern Governors (CONEG)**

This product conforms to the Coalition of Northeastern Governors (CONEG) Toxic in Packaging Legislation. Any incidental levels of lead, cadmium, hexavalent chromium, and mercury do not exceed 100 ppm total.

### **Conflict Minerals (Dodd-Frank Wall Street Reform and Consumer Protection Act)**

This product is not intentionally manufactured or formulated with the listed conflict minerals as per Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act; however, we do not analyze for these specific substances or compounds.

- Columbite-Tantalite – refined into Tantalum (Ta) (CAS # 7440-25-7)
- Cassiterite – refined into Tin (Sn) (CAS # 7440-31-5)
- Wolframite – refined into Tungsten (W) (CAS # 7440-33-7)
- Gold (Au) (CAS # 7440-57-5)

For more information please visit Dow's Corporate Website - <https://corporate.dow.com/en-us/about/codes-of-conduct>

## **Origin**

### **Synthetic Origin**

The above Product contains ingredients that have been prepared solely from synthetic sources. They do not contain any materials of animal and/or plant origin.

### **Genetically Modified Organisms (GMO)**

This product does not contain, nor has it been manufactured at any stage with, genetically modified organisms (GMOs).

### **Animal Derived Components (BSE/TSE)**

With regards to Bovine Spongiform Encephalopathy (BSE) and Transmissible Spongiform Encephalopathy (TSE), we do not intentionally add, nor would we expect any component of this product to be derived from bovine, ovine, caprine, porcine or related ingredients of animal origin. This product is derived from materials of synthetic, petrochemical and/or mineral origins.

# CARBOWAX™ SENTRY™ Polyethylene Glycol 400 NF Low Aldehyde; Macrogol 400 Ph. Eur.

## Preservative

### Preservatives

No preservative is intentionally added to this product.

## Volatile Organic Compound

### Volatile Organic Compounds (VOC)

With regard to Volatile Organic Compounds (VOC) content, the Environmental Protection Agency (EPA) definition of a VOC in non-consumer applications is any compound of carbon excluding carbon monoxide, carbon dioxide, carbonic acid, metallic carbides or carbonates, and ammonium carbonate and excluding compounds which have negligible photochemical reactivity such as: ethane, methane, methylene chloride, perchloroethylene and acetone. For other compounds, see 40 Code of Federal Regulations Section 51.100(s) and check for any recent Federal Register notices possibly exempting other negligibly reactive VOCs. Note, the water portion of a product, if present, is not considered a VOC. Since state or local governments and some specific EPA regulations may be more restrictive than the definition above, please check these sources also. Under this broad definition, this product is a VOC. The EPA has developed, and states may require, the use of EPA Method 24 to determine the percent VOC content of paints and coatings. This method was not developed for the analysis of individual ingredients. See the appropriate federal or state regulations for any other methods or procedures specified for determining VOC content. The EPA's National VOC Emission Standards for Consumer Products Rule, as well as regulations in several states allow for the exemption of solvents from VOC regulation with a vapor pressure less than 0.1 mm Hg at 20 degrees Celsius. This exemption applies to VOC content limitations for consumer products. Please check your local regulations, and/or the Federal Rule to determine if your end use application is covered by this definition of a VOC. The vapor pressure of this product is listed on the SDS.

### Volatile Organic Compounds (VOC) - European Union (EU)

Volatile Organic Compounds (VOC) rules and regulations vary widely depending on the use of the finished product, and the applicability of VOC regulations depends upon the jurisdiction.

The definition of VOC therefore varies, depending on the relevant Directive. For instance:

a) Paints Directive (Directive 2004/42/EC on the limitation of emissions of volatile organic compounds due to the use of organic solvents in certain paints and varnishes and vehicle refinishing products) : 'Volatile organic compound (VOC)' means any organic compound having an initial boiling point less than or equal to 250°C measured at a standard pressure of 101,3 kPa;

b) Industrial Emissions Directive (Directive 2010/75/EU on industrial emissions (integrated pollution prevention and control)): 'Volatile organic compound' means any organic compound as well as the fraction of creosote, having at 293,15 K a vapour pressure of 0,01 kPa or more, or having a corresponding volatility under the particular conditions of use;

The vapour pressures and boiling points of the product and/or ingredients of interest are listed in the SDS. Please note that it is the responsibility of the user to determine the appropriate regulatory requirement for their operation and/or final product use.

# CARBOWAX™ SENTRY™ Polyethylene Glycol 400 NF Low Aldehyde; Macrogol 400 Ph. Eur.

## General/Global Regulations

### EU Directive 2000/13/EC Food Allergens

These products have been evaluated for the source of the raw materials used in their production. In the production process there are no raw materials, including additives, used that are listed as allergens in EU Directive 2000/13/EC or its amendments that have their origin in cereals containing gluten, crustaceans, eggs, fish, peanuts, soybeans, milk, nuts, celery, mustard, sesame, molluscs, and/or lupin. Nor do these products contain sulphur dioxide or sulphites at concentrations of more than 10 mg/kg. Based on this examination of the ingredients and their sources, these products are free of the specified known allergy stimulating substances.

### Food Allergens

This product does not contain any of the eight major food allergens (milk, eggs, fish, shellfish, tree nuts, peanuts, wheat and/or soybeans) or proteins as listed in the FALCPA of 2004 and in FDA Guidance Sec.550.250 and does not contact these food allergen during the manufacturing process. This product does not contain any of the 26 allergen ingredients as defined in the Cosmetics Products Regulation (EC) 1223/2009. Based on our knowledge of the manufacturing process and the raw materials used to produce this product, the following materials are not expected to be present in this product.

- Peanuts or peanut products (butter, oil, flour)
- Tree nuts (almonds, pecans, walnuts, Brazil nuts, cashew, chestnuts, etc.)
- Plant derivatives, including nuts and seeds
- Eggs or egg products (whites, yolks, meringue, mayonnaise, etc.)
- Fish (cod, flounder, salmon, trout, tuna, etc.)
- Shellfish (crustaceans and mollusks)
- Celery (root, leaves, stalk, not seeds)
- Dairy or dairy derivatives
- Cereals containing gluten including but not limited to:
  - Barley or barley derivatives
  - Corn or corn derivatives
  - Oats or oat derivatives
  - Rice or rice derivatives
  - Rye or rye derivatives
  - Spelt or spelt derivatives
  - Wheat or wheat products
- Soybean or soy products (soy derived vegetable protein, tofu, etc.)
- Sulfites
- Artificial or natural colors including FD&C Yellow #5 and #6
- Umbelliferae (carrot or parsley family)
- Flavors/enhancers
- Nitrites/nitrates

### CMR

For information on the components of our product and their concentrations, please refer to the Safety Data Sheet (SDS) and the Sales Specification. In the U.S. and Canada, reproductive toxins, mutagens, carcinogens, and respiratory tract sensitizers present at > 0.1% (by weight) will appear in the ingredients

# CARBOWAX™ SENTRY™ Polyethylene Glycol 400 NF Low Aldehyde; Macrogol 400 Ph. Eur.

section of the SDS for any given product. In the EU, the EU Safety Data Sheet Directive requires the following: - Any component present at > 0.1% (by weight) and classified as a Category 1 or 2 CMR under Annex I to Directive 67/548/EEC (resp CMR 1a or 1b to ANNEX VI to Directive 1272/2008/EC (CLP)) will appear in the ingredients section of the SDS. - Any component present at > 1% and classified as a Category 3 CMR under Annex I to Directive 67/548/EEC (resp CMR 2 to ANNEX VI to Directive 1272/2008 EC (CLP)) will appear in the ingredients section of the SDS. Dow does not routinely analyze for additional materials that are not listed in the SDS or Sales Specification.

## **Endocrine Disruptors Statement**

This product is not manufactured or formulated with any of the compounds on the US EPA Endocrine Disruptor Screening Program Tier 1 lists. Nor are any of these compounds used in the packaging, shipping, or storage of this product. The lists of Tier 1 substances may be found at <http://www.epa.gov/endo/>.

## **Nanomaterials**

To the best of our knowledge, this product is not manufactured with nanoparticles or nanotechnologies.

## **Residual Solvents**

The Residual Solvents, listed as Class 1, 2 and 3 in USP General Chapter <467>, are not used in the production process and are not intentionally added. Class 2 solvents, 1,4-dioxane and ethylene glycol, are likely to be present as process impurities. The concentrations of these impurities are below the ICH Q3C Option 1 limit of 380 ppm and 620 ppm, respectively.

## **EU Directive 2015/863 (RoHS 3)**

DIRECTIVE (EU) 2015/863 of 31 March 2015 amending Annex II to Directive 2011/65/EU of the European Parliament and of the Council on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS) requires that new electrical and electronic equipment put on the market does not contain lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB) or polybrominated diphenyl ethers (PBDE), Bis(2-ethylhexyl) phthalate (DEHP), Butyl benzyl phthalate (BBP), Dibutyl phthalate (DBP) and Diisobutyl phthalate (DIBP). Dow does not routinely analyze for additional materials that are not listed in the SDS or Sales Specification. However we are pleased to be able to confirm that this product is not expected to contain: lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB) or polybrominated diphenyl ethers (PBDE), Bis(2-ethylhexyl) phthalate (DEHP), Butyl benzyl phthalate (BBP), Dibutyl phthalate (DBP) and Diisobutyl phthalate (DIBP). None of these materials are intentionally added to this product.

## **Substances and Compounds**

The following substances are not expected to be present in this Product. We may not specifically analyze for the presence of these substances in the Product. Therefore, we cannot guarantee the absence or level of these substances to any specific limit or threshold value:

Adipates  
Alkylphenols and Alkylphenol Ethoxylates

**CARBOWAX™ SENTRY™ Polyethylene Glycol 400 NF Low Aldehyde; Macrogol  
400 Ph. Eur.**

Alkyl phenols  
Antibiotics  
Azo compounds  
Benzophenones  
Bisphenol A  
Bis(2-ethylhexyl) adipate (DEHA)  
Bisphenol A-diglycidylether (BADGE)  
Bisphenol B (BPB) (77-40-7)  
Bisphenol F  
Bisphenol F diglycidyl ether (BFDGE)  
Bisphenol S (BPS) (CAS No. 80-09-1)  
Brominated Flame Retardants (BFR's)  
Butylated Hydroxy Anisole (BHA)  
Butylated Hydroxy Toluene (BHT)  
Caffeine  
Carbohydrates  
Chlorinated flame retardants  
Chlorofluorocarbons  
Chlorofluorocarbons (CFCs) or Hydrochlorofluorocarbons (HCFCs)  
Colophonium / Gum rosin / Rosin  
Colorants & Pigments  
Cyanuric Acid  
Dimethyl Fumarate  
Dioxins  
Ethanol  
Furans  
Glycol Ethers classified as Reprotox 1A or 1B  
Glycol ether compounds  
Halogenated Flame Retardants  
Halogenated Organic Compounds  
Hormones  
Iodine  
Isocyanates  
2-Isopropyl thioxanthone (2-ITX) (CAS No. 5495-84-1)  
Jatropha Plant (Derivatives or parts)  
Maleic or Oxalic Acid  
Melamine  
Methyl isocyanate  
Mineral Oil Aromatic Hydrocarbons / Mineral Oil Saturated Hydrocarbons  
Monosodium Glutamate  
Natural Rubber Latex (NRL)  
Mineral Oil Aromatic/Mineral Oil Saturated Hydrocarbons (MOAH/MOSH)  
Nitrilotriacetic acid (NTA)  
Nitrosamines  
Novolac Glycidyl Ether (NOGE)  
Optical brighteners  
Organic silicon compounds  
Ozone Depleting Substances

# CARBOWAX™ SENTRY™ Polyethylene Glycol 400 NF Low Aldehyde; Macrogol 400 Ph. Eur.

Palm Oil  
Parabens  
Peptones  
Perfluorocarboxylic Acids (PFCA)  
Perfluorooctane sulfonate (PFOS)  
Perfluorooctanoic acid (PFOA)  
Pesticides  
Phthalate esters  
Phthalates  
Plasticizers  
Polybrominated Biphenyls (PBB)  
Polybrominated Diphenyl ether (PBDE)  
Polybutylene  
Polychlorinated Biphenyls (PCB)  
Polychlorinated Terphenyls (PCT)  
Polycyclic Aromatic Hydrocarbons (PAH)  
Polyvinyl Chloride (PVC)  
Polyurethane  
Quaternary Ammonium compounds  
Radioactive substances  
Silicone / Surface active substances  
Siloxanes  
Steroids  
TDI, Toluene Diisocyanate  
Titanium dioxide  
Titanium Acetyl Acetate (TAA)  
Tributyl Tin (TBT) & Triphenyl Tin (TPT) Compounds  
Tributyl Tin Oxide (TBTO)  
Trichlorophenols  
Tricresyl phosphate (CAS No. 1330-78-5)  
Tris(2-chloroethyl)phosphate (TCEP)  
This product is not manufactured or formulated with any of the substances as per lists under the Montreal Protocol and EU Regulation (EC) No 2037/2000. However, we do not analyze for these substances or compounds.

## **Product Specification**

For product specifications, please request a Sales Spec document for this product from The Dow Customer Information Group at <http://www.dow.com/en-us/contact-us-cig>.

## **Composition Statement**

For information on the components of our product and their concentration, please refer to the Safety Data Sheet (SDS) and the Sales Specification. Any hazardous constituents above regulatory disclosure cut-off limits determined according to their regional and/or specific GHS classification(s) will appear in the ingredients section of the SDS. In addition, consult the Hazardous Decomposition Products section for further information. You can search <https://www.dow.com/en-us/support/sds-finder.html> for an available SDS.

# CARBOWAX™ SENTRY™ Polyethylene Glycol 400 NF Low Aldehyde; Macrogol 400 Ph. Eur.

## **Responsible Care**

Dow complies with the American Chemistry Council's Responsible Care® guiding principles, codes, and management system requirements. Dow has recommitted its support for Responsible Care on a global scale by signing the Responsible Care Global Charter under the auspices of the International Council of Chemical Associations (ICCA). Dow has also endorsed the ICCA's Global Product Strategy, an effort by the global chemical industry to further improve its product stewardship efforts. Our EH&S management system is audited regularly to ensure compliance with all applicable governmental requirements, Responsible Care, and internal Dow requirements.

Dow has adopted what we call our "2025 Sustainability Goals" -- ambitious performance improvement goals with a broad external focus: strengthening our relationships with the communities where we operate, continuing to improve our product stewardship and innovation, and reducing our global footprint. In support of these goals, Dow is constantly working to improve our performance through focused EH&S programs such as the Waste Reduction Always Pays (WRAP) program. More information can be found by visiting <https://www.dow.com/en-us.html>.

## **Product Stewardship**

Dow has a fundamental concern for all who make, distribute, and use its products, and for the environment in which we live. This concern is the basis for our product stewardship philosophy by which we assess the safety, health, and environmental information on our products and then take appropriate steps to protect employee and public health and our environment. The success of our product stewardship program rests with each and every individual involved with Dow products - from the initial concept and research, to manufacture, use, sale, disposal, and recycle of each product.

## **Customer Notice**

Dow strongly encourages its customers to review both their manufacturing processes and their applications of Dow products from the standpoint of human health and environmental quality to ensure that Dow products are not used in ways for which they are not intended or tested. Dow personnel are available to answer your questions and to provide reasonable technical support. Dow product literature, including safety data sheets, should be consulted prior to use of Dow products. Current safety data sheets are available from Dow.

## **Medical Applications Policy**

NOTICE REGARDING MEDICAL APPLICATION RESTRICTIONS: Dow does not support or intend for its products to be used in:

- long-term or permanent contact with internal bodily fluids or tissues. "Long-term" is contact which exceeds 29 calendar days;
- use in cardiac prosthetic devices regardless of the length of time involved ("cardiac prosthetic devices" include, but are not limited to, pacemaker leads and devices, artificial hearts, heart valves, intra-aortic balloons and control systems, and ventricular bypass-assisted devices);
- use as a critical component in medical devices that support or sustain human life; or
- use specifically by pregnant women or in applications designed specifically to promote or interfere with human reproduction.

e. use as an ingredient of a pharmaceutical injectable application.

Dow requests that customers considering use of Dow products in medical applications notify Dow so that appropriate assessments may be conducted. Dow does not endorse or claim suitability of its products for specific medical applications. It is the responsibility of the medical device or pharmaceutical manufacturer to determine that the Dow product is safe, lawful, and technically suitable for the intended use. DOW MAKES NO WARRANTIES, EXPRESS OR IMPLIED, CONCERNING THE SUITABILITY OF ANY DOW PRODUCT FOR USE IN MEDICAL APPLICATIONS.

## **Tobacco and Marijuana Policy**

Dow does not support or intend for its products to be used, directly or indirectly, in the production of tobacco, the manufacture of tobacco products, the manufacture and use of electronic cigarettes/vaping, the production of marijuana, or the manufacture of marijuana products intended for human consumption, where the Dow product (or its residues) may be present in the finished product or be alleged to facilitate the delivery of nicotine, other tobacco components, marijuana, or marijuana components.

## **Harmful Applications Policy**

Dow does not intend for its products to be used in applications specifically intended to harm humans.

# CARBOWAX™ SENTRY™ Polyethylene Glycol 400 NF Low Aldehyde; Macrogol 400 Ph. Eur.
